

# Portfolio

**Jackie Morris**

[jackiemorrisdesign@gmail.com](mailto:jackiemorrisdesign@gmail.com)

## *Biography*

---

With over 36 years of experience, I have established myself as a professional with a strong reputation in the graphic design industry. My thorough knowledge of Adobe's InDesign, Illustrator and Photoshop packages, along with a firm command of Microsoft's PowerPoint and Word programs provides a well-rounded skill set, ensuring a high-quality product every time.

My many years working for high-tech companies, such as Nokia (formerly Alcatel-Lucent) and Nortel Networks, have provided me with an extensive collection of network diagrams, technical illustrations and PowerPoint presentations. As well, my four-year contract with Canada Post expanded my scope of work to include over 2,000 illustrations for their Cancel Stamp program.

In addition to these accomplishments, my diverse portfolio also includes illustrations for children's books, web site design, logo design, photo editing and complex collateral layouts. My attention to detail and ability to turn jobs around in record time makes me the best choice for all your graphic design needs.

# Illustrator – Figures for Publications – Network Diagrams

Working from customer-supplied PowerPoint originals, I create vector-based .eps files, incorporating the corporate colour palette, fonts and icons to create a uniform look and feel for all network diagrams in external collateral.

**Instant Ace Plus**  
The Instant Pot Ace Plus 10-in-1 blender is perfect for smoothies, soups and more. Make baby food, creamy nut butters, frozen treats, margaritas, dips, nut milks, and so much more - the possibilities are endless.

**Tasty smoothies**  
This powerhouse 10-speed customizable blending paired with 26,500RPM of power makes smoothies nutritious and tasty.

**Hot delicious soups**  
Instant Blenders give you thorough and even cooking with a hot heating element, unlike blade friction blenders.

**Margaritas**  
Make tasty margaritas and other frozen cocktails with the Crushed Ice program.

**Dips**  
Make queso, salsa, guacamole dips and more for snacks or side dishes.

**Make creamy nut butters**  
With this powerhouse 26,500RPM motor the Ace Plus crushes ingredients to get a creamy consistency.

**Healthy baby food**  
Make yummy baby food fast with easy one touch programs.

## Illustrator – Logo Design

---

Mobile Maestro is an organization bringing music education and fun for all ages to your door. They needed a logo that represented the musical aspect of their company, along with something that conveyed the fact that they were “on the go”. The music staff with the right-slanted, scripted text fit the bill nicely.

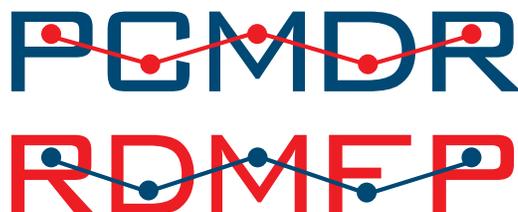

The Silver Lining Program is designed to help families who are struggling financially when dealing with an unexpected, life-threatening illness. This is a gifting program where, through the sale and/or purchase of a home, a monetary gift is given to a family registered in the Program.

Stittsville Massage Therapy wanted a new logo for their Facebook page and business cards. Basing the design on an existing stock illustration they were using, I created the logo to complement its colour scheme and style. The fact that the arcing branch with diminishing circles evokes the image of a spine really adds to the image's effectiveness.

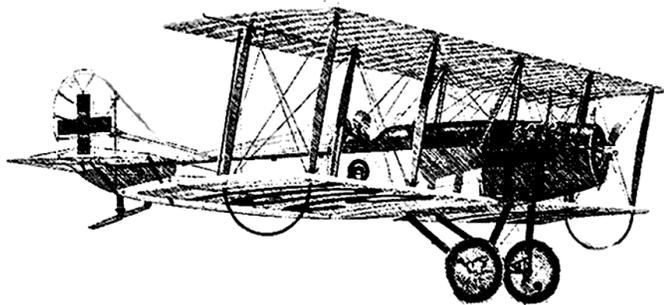

The Patient Contributed Medical Data Repository (Répertoire des Données Médicales Fournies par les Patients) is an online, comprehensive interface where diabetics can enter their blood sugar tracking data. This free service may be accessed by patients or doctors through a secure system, via computer or cell phone, so an accurate, up-to-the-minute record of the patient's condition is available at all times. The acronyms are PCMDR/RDMFP so I used the letters and combined points on a line graph to help illustrate the purpose of the site. Reversing the blue and red in the two versions of the logo adds another dimension when used together on bilingual material.

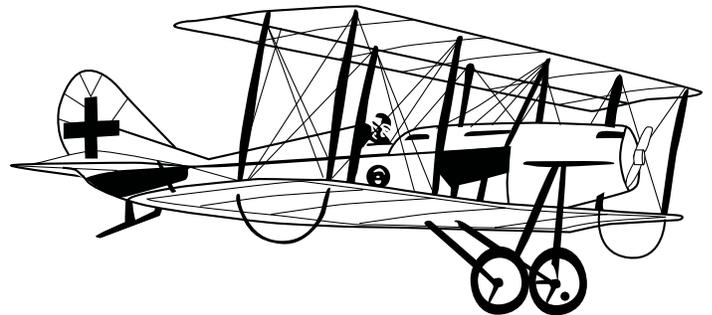

## Illustrator – Pictorial Cancel Stamps

Pictorial cancel stamps are produced for postal outlets across Canada. Artwork is submitted in formats ranging from rough sketches, photographs to electronic files. The image area is 1” wide by .6” tall. Renderings must be simplified in order for the detail to reproduce properly in a pure black and white format. All final artwork must be vector-based.

Image supplied by client.

Simplified, vector-based line illustration.

Final cancel stamp artwork (actual size).

*Illustrator – Figures for Publications – New Technology Concept*

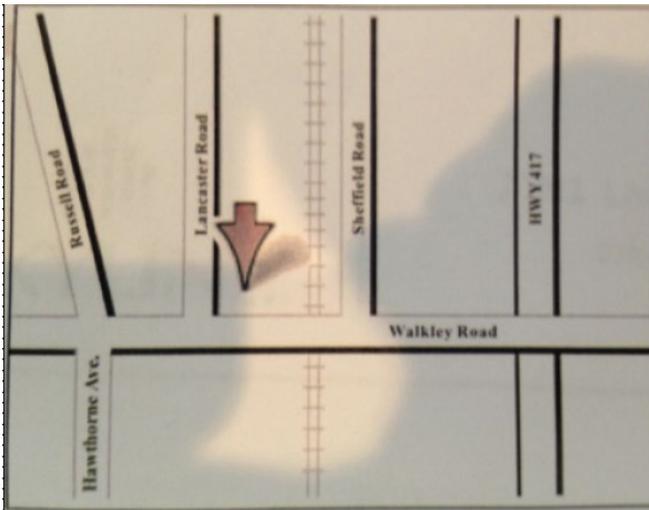

The customer required a mock digital interface. I was supplied with photographs of several competitors' existing products and prototypes and was asked to come up with some alternatives containing similar elements. These are all vector-based illustrations.

## *Illustrator – Figures for Publications – Illustrations*

---

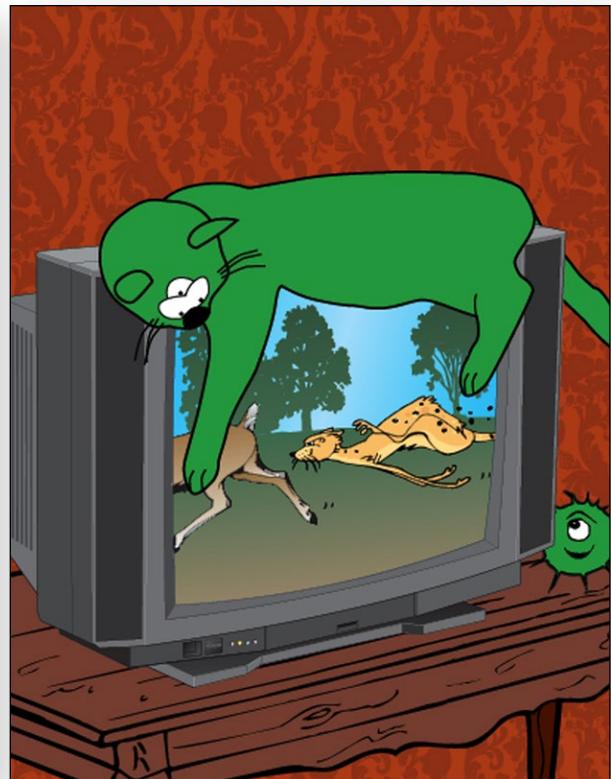

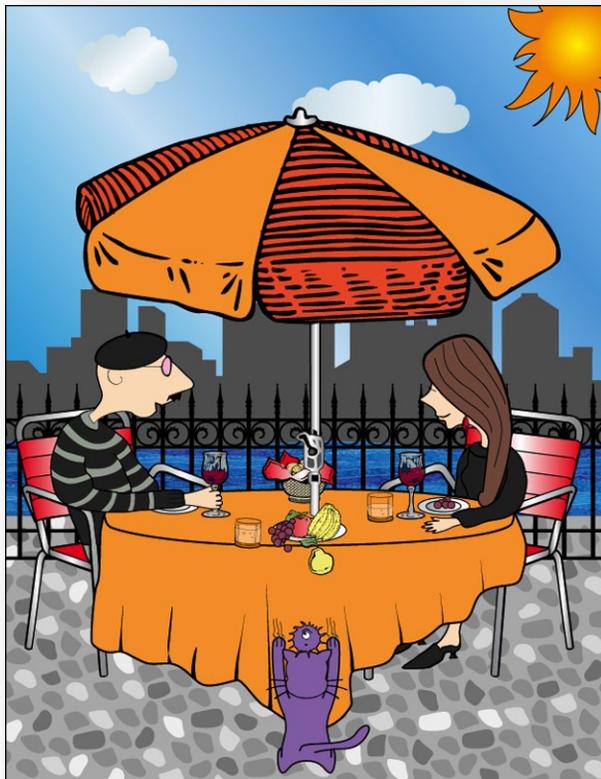

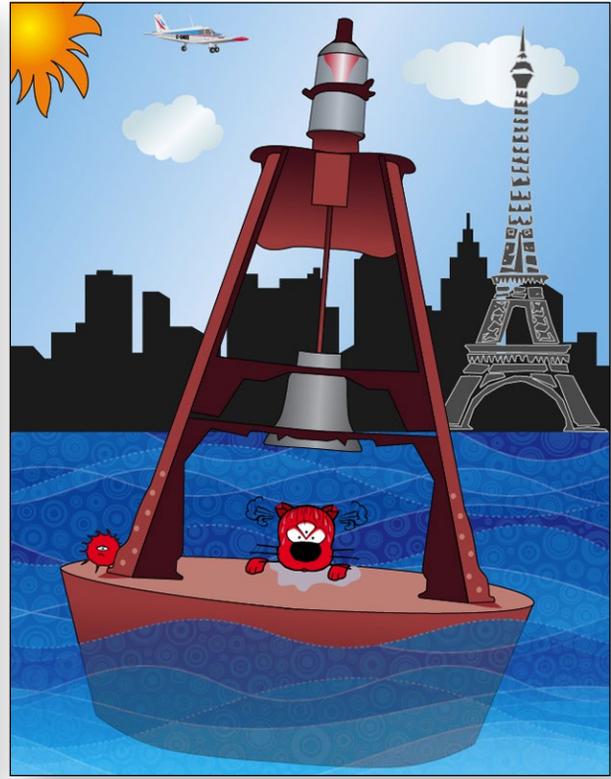

This client had an information sheet in which they described a building they owned, and where it was located in the city. The “before” picture shows the flat, boring map they had in their old publication. They asked for something that would “pop” off the page and catch the eye. Using Google maps as a base, I traced the streets and surrounding buildings, skewed them into perspective, then added some dimension. The larger icon was drawn based on several photo images supplied of their actual building. Applying the company’s corporate colours brought it all in line.

This illustration was created for high-end promotional collateral pieces. I worked from a photograph of the actual product, which I redrew in vector-based format.

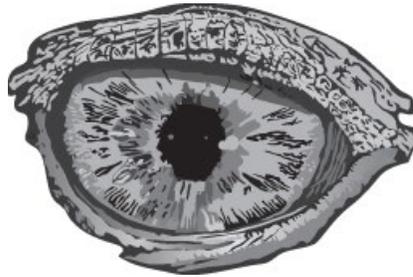

*Glurg’s Adventure in Paris* is the first in my series of children’s picture books containing lively, full-colour illustrations throughout. The cat-like character (jackoid) in the book comes from another planet, has three eyes and changes colour with his moods. He was an original creation by my stepdaughter and myself. Note the drawing of our own Piper Cherokee in the top right illustration!

*Illustrator – Children’s Book Illustrations*

---

*Luminaria*, the first in my series of children’s adventure books, is home to many illustrations created to help pull the reader further into the story. They were all drawn in Adobe Illustrator using many different images as a base, including actual family members’ photos.

PowerPoint is one of the most popular software packages used to help convey important messages. Impactful images and talking points are key to many marketing packages, from high-tech to small business.

### Network Group Encryption (NGE)

The ideal encryption solution for critical protection applications

SCADA RTU/ Op. voice	V.24/4-wire
Protection relays	C37.94/G.703
P25/ LMR	DS1/E1
LAN/router GOOSE/SV, IED	Ethernet
CCTV, LTE	

Network Services Platform = Network and service management + Encryption management

- Service Router portfolio for NGE-based service encryption
- Key groups enabling secure services and network partitioning
- Encrypted MPLS services and control

Legend:  
 ↔ Point-to-point  
 ⇄ MP2MP  
 ↔ Network control

types welcome

**NOKIA**

### Medical Isotopes (Mo-99) Supply Chain

**NUCLEAR REACTORS**  
Irradiation of HEU targets to produce crude isotopes

**MEDICAL ISOTOPE PROCESSORS**  
Purification of Mo-99 and distribution to global radiopharmaceutical manufacturers

**RADIOPHARMACEUTICAL MANUFACTURERS**  
Tc-99m Generator manufacturing and distribution to radiopharmacies

**RADIOPHARMACIES AND HOSPITALS**  
Unit dose compounding and distribution to hospital/ departments

**PHYSICIANS AND PATIENTS**  
Critical physiological diagnosis enabling informed therapeutic decisions

**THE COMPLEXITIES OF SUPPLY**

RETURN TO MAP  
Serpentine Rides

To help promote my book, *Luminaria*, I designed a web site based on the cover artwork. Since many of the story's characters and creatures have red eyes, I added a bit of fun in the rollover artwork for each page.

*Luminaria*

JACKIE MORRIS

When princess Alex and her friends walk through mirrors, they're instantly transported from eighteenth-century Europe into Luminaria, but not the magical, light-filled world described to them by the young fairy, Willow. Instead, they step into a lifeless, charred landscape laid waste by the evil SheZor.

Battling giant spiders, fierce red-eyed dogs and fire-breathing dragons is only part of what they must do to defeat SheZor and return Luminaria to its former glory.

Alcatel-Lucent Enterprise supplies documentation in several languages, including English, French, German, Spanish, Italian, Portuguese, Russian and more. These all need to have a consistent look and feel.

## Optimiser l'efficacité du traitement d'alarme et la sécurité personnelle

La solution de notification IQ Messenger est idéale pour les petites et moyennes entreprises des domaines de la santé, de l'éducation, de l'industrie à haut risque et de l'hôtellerie. Elle fournit un système d'alarme et de notification flexible, facile à installer et qui s'intègre nativement à l'Alcatel-Lucent OmniPCX\* Enterprise et OXO Connect.

La solution IQ Messenger collecte et fédère les alarmes provenant de sous-systèmes hétérogènes comme par exemple des systèmes d'appels infirmière ou d'alertes incendie. Elle notifie en temps réel le personnel le plus apte à réagir à la situation en utilisant tous les systèmes de communication métier adaptés, en tenant compte de la mobilité du personnel : combinés DECT, GSM, Smartphone, console de supervision avec écran de géo localisation, etc.

IQ Messenger offre une gamme complète d'applications et d'intégrations avec les principaux acteurs du marché qui permet de proposer des usages innovants comme la notification sur appareils mobiles et l'intégration dans des applications spécifiques. Son interface web unique fédère intelligemment un écosystème client complexe et hétérogène.

Brochure  
IQ Messenger

### Avantages

- Ouverture et évolutivité pour les principaux acteurs du marché et besoins spécifiques
- Protection des investissements par l'intégration des systèmes existants
- Extrêmement simple à installer et à configurer
- Compatibilité totale avec les protocoles et interfaces de l'existant (relais secs, BacNet, SNMP and ModBus, etc.)
- Fonctionnalités natives et optimisées pour l'OXO Connect, les consoles de supervision, etc.
- IQ Messenger est certifié CE pour la classe 2b. Cette certification garantit la compatibilité avec les logiciels qui intègrent des dispositifs médicaux.

\*La plupart des systèmes de notification sont compatibles ESPA/TAP.

## Improve real-time situational awareness and personal safety

IQ Messenger notification solution is the perfect solution for small and medium-sized enterprises in healthcare, education, high-risk industries and the hospitality sector, as it provides a flexible, easy-to-install alarm and notification system with a native integration to the Alcatel-Lucent OmniPCX\* Enterprise and Alcatel-Lucent OXO Connect.

It collects and aggregates alarms from different subsystems, such as nurse calls, fire alerts, or wander prevention

### Benefits

- Openness and scalability: integration with key market players for specific needs
- Investment protection through the integration of existing systems
- Extremely simple to install and configure
- Full compatibility with industry standards, protocols and interfaces, such as ESPA/TAP\*, dry contacts (electric relays), KNX, ModBus, BacNet, SNMP and SMPP
- Unique features provided by the native and optimized integration to the Alcatel-Lucent OXO Connect, and wired

notification server (MDR) that is certified mandatory for medical devices.

are ESPA/TAP compliant

## Bessere situationsbezogene echtzeitinformationen und mehr persönliche sicherheit

Der IQ Messenger ist die perfekte Lösung für kleine und mittelständische Unternehmen im Gesundheits- und Bildungswesen sowie im Hochrisikobereich und der Hotelbranche. Er bietet ein flexibles, einfach zu installierendes Alarm- und Benachrichtigungssystem mit einfacher Integration in Alcatel-Lucent OmniPCX\* Enterprise und die Alcatel-Lucent OXO Connect

Der IQ Messenger sammelt und bündelt Alarme verschiedener Subsysteme (beispielsweise Pflegerufsysteme oder Feueralarme). Er benachrichtigt in Echtzeit die relevanteste Person durch branchenspezifische Kommunikationssysteme und berücksichtigt die Mitarbeitermobilität: z. B. mit dem DECT-Telefon, GSM, Smartphone und der Management-Konsole mit Geolokalisierungsbildschirm.

Der IQ Messenger bietet ein ganzes Sortiment an Anwendungen und Integrationen mit den heterogenen Systemen der wichtigsten Anbieter, die alle intelligent über eine Web-Schnittstelle integriert werden. Die verschiedenen Integrationen ermöglichen innovative Dienste, wie z.B. Benachrichtigungen für mobile Geräte, und die Integration spezifischer Anwendungen.

### Vorteile

- Offen und skalierbar: Integration in die Produkte der wichtigsten Anbieter von Speziallösungen
- Investitionsschutz durch die Integration vorhandener Systeme
- Sehr einfache Installation und Konfiguration
- Vollständige Kompatibilität mit Branchenstandards, -protokollen und -schnittstellen wie ESPA/ TAP\*, potenzialfreien Kontakten (elektrische Relais), KNX, ModBus, BacNet, SNMP und SMPP
- Einzigartige Möglichkeiten durch die native und optimierte Integration in Alcatel-Lucent OmniPCX Enterprise, in die OXO Connect und in kabelgebundene/mobile Endgeräte.
- Der IQ Messenger ist der einzige Benachrichtigungsserver, der nach der Europäischen Verordnung über Medizinprodukte (MDR) der Klasse 2b zertifiziert ist. Diese Zertifizierung ist obligatorisch für Software, die mit medizinischen Geräten interagiert.

\*Die meisten Pflegerufanlagen und Feueralarmsysteme sind ESPA/TAP-konform.

What's more fun than a water slide? ProSlide is the design and manufacturing company of those large, wet and wild rides we all love so much. They wanted their "dry" fact sheets to really pop.

## Spending time

The retail/entertainment village is centered on the entry plaza and can be closed off and operated as a standalone facility during evening hours. This is both an excellent source of supplemental revenue and a great way of prolonging guests' stay at the park. At the core of the entertainment complex is a surf bar and restaurant featuring the ProSlide SURF™ premium surf simulator – which is modeled after open ocean waves. Food, music and entertainment are a winning combination sure to draw crowds all day.

Attractions Program Summary	
Estimated Design Day	14,197
Estimated Design Day Peak in Park	11,358
Target Entertainment Units	2.5
Target Hourly Capacity	28,395

## A place for everyone

This sample park also features many of the ideal relationships that we strive to establish in all of our designs, such as placing the kids' area near the entrance so that young families and their eager children can get right to the fun without having to trek to the other side of the park.

### Quick Breakdown

- 200,000 m<sup>2</sup> water park footprint
- Estimated design day of 14,000 guests
- Welcoming entry plaza with amenities and entertainment to accommodate gatherings, special events and group/corporate activities
- Logical, intuitive circulation that guides guests around the park
- Ride placement that offers both fun and terrific visual impact
- Lazy river travels underneath the rides and

- 2003 IAAPA Impact Award
- 2003 IAAPA Best New Water Park Ride

Siam Park, Spain

The **TORNADO 60** impresses riders and spectators alike. Its sheer size provides a guaranteed visual impact and its legendary ride path thrills guests with bursts of speed, high-gs and weightless hang time. No wonder it scores #1 favorite in guest surveys.

**Ride experience.** Riders enter the TORNADO at the steepest angles and the fastest speeds. As they sweep high up the opposite wall – and across the equator line – they experience an unparalleled feeling of weightlessness. With their vehicle almost perpendicular to the ground, riders feel like they are about to tip over, but the curved funnel wall keeps them perfectly safe. After a series of these exciting oscillations, riders descend through the outrun and exit the ride.

**Exclusive technology.** Only ProSlide creates a true funnel-shaped water ride with a perfectly round opening and curved walls that taper to the center. This patented shape creates the thrills that just can't be duplicated.

Vehicle Specifications	6 person	4 person	2 person

I was approached to design a program for a fundraising concert. Using images and a colour scheme from their web site, I created a program and promo card to help round out their promotional material.

Southminster Church  
15 Aylmer Street, Ottawa

**SOUTHMINSTER MUSIC  
FOR CHARITY AND COMMUNITY**

# Concert Series

Featuring narration by  
Toronto Centre MP Bob Rae for  
Donizetti's *L'elisir d'amore* on  
Sunday February 14th.

The SMCC would like to acknowledge the efforts of Dave Brown, Jackie Grimes, Serge Phaland and the generosity of the Royal College of Physicians and Surgeons of Canada for the use of their parking facilities.

For more information, visit our website at [www.southminstermusic.com](http://www.southminstermusic.com) or email us at [information@southminstermusic.com](mailto:information@southminstermusic.com)

**COULEURS AUTOMNALES – FALL COLOURS**  
 Tuesday, November 3rd – 7:30 pm  
 SMCC is proud to sponsor a concert by one of Ottawa's most prestigious choirs led by Robert Filion. The De la Salle choral program has won acclaim for its tremendous accomplishments at home and abroad. This wonderful day of music development for the choir will culminate in a thrilling concert with emcee Julie Nesrallah (CBC Tempo) and guest piano performance of maestro Neil Semer of New York.

**DEBUSSY IN ITALY**  
 Sunday November 8th – 2:30 pm  
 We are honoured to sponsor a concert featuring

DAVID THIES-THOMPSON

JULIE NESRALLAH

LAURA NOCCHIERO

TARAS KULISH

ESTHER GONTHIER

ALEXANDER DOBSON

MARC RUEL

EVELYN GREENBERG

GARTH HAMPSON

SUE DORAN

**L'ELISIR D'AMORE (IN CONCERT)**  
 Sunday February 14th – 2:30 pm  
 Donizetti's tremendous comic opera will be presented in this concert version, from artistic and musical director Esther Gonthier, with Maria Knapik (Adina), Taras Kulish (Dulcamara), Alexander Dobson (Belcore), Mariateresa Magisano (Giannetta) and Fraser Rubens (Nemorino). But the greatest gift is our narrator, who will enthral you!

**DUETS ON A SUNDAY AFTERNOON**  
 Sunday April 25th – 2:30 pm  
 Please come and celebrate an afternoon of charming piano excellence with Canada's premier heart surgeon/concert pianist Marc Ruel and Francoise Ruel. In support of the Heart Institute alumni foundation.

**MOTHER'S DAY MUSIC HALL**  
 Sunday May 9th – 2:30 pm  
 We finish our season with a wonderful charming afternoon with Ottawa's own Garth Hampson (baritone) and Evelyn Greenberg (piano) with an inaugural appearance of Kitchener's lady of song and laughs, Sue Doran. This should prove huge fun for all of us in an afternoon to support the piano fund. Come and laugh and cry at these wonderful Canadian performers!

*SMCC and Southminster United Church are equally proud to share this prime concert space (which features a glorious 9-foot Steinway), with artists interested in using this venue to present chamber music concerts. Thanks to the vision of SMCC, Southminster has now been recognized as a superb concert space and we are proud to have participated as a location for Ottawa's Chamber Music Festival.*

**SOUTHMINSTER MUSIC FOR CHARITY AND COMMUNITY**

Southminster Music for Charity and Community (SMCC) is an independent charitable organization dedicated to supporting peace, justice and well-being through music. Since its inception, SMCC has supported the production of musical events featuring well-known local talent as well as nationally and internationally renowned artists such as Julie Nesrallah, Amanda Forsyth, Jean Desmarais and many others. The concert series has also provided an opportunity for young musicians to share the stage in an encouraging venue that fosters musical excellence. Through the dedication of our members and our community partners, music performed in this beautiful sanctuary has constituted a vehicle to support the work of local charities by sharing our revenues. Past charitable organizations have included the Stephen Lewis Foundation, MAP (mentorship-aftercare-presence), Old Ottawa South Out of the Cold Suppers and L'Arche Ottawa. SMCC and Southminster United Church are equally proud to share this prime concert space (which features a glorious 9-foot Steinway and wonderful acoustics), with artists interested in using this venue to present chamber music concerts, as we have done with the Ottawa Chamber Music Festival.

**HOW CAN YOU HELP?**  
 There are many ways by which you can help SMCC grow and contribute to our city.

**ATTENDING ONE OF OUR CONCERTS**  
 First and foremost, we want to see you at our concerts! Bring your friends and family to experience the buzz and enthusiasm!

**MAKING A DONATION**  
 SMCC is now a recognized charitable organization and receipts will be provided for any donations received. There is also a tremendous opportunity for corporate partnership to highlight involvement in the arts and support the evolution of this community concert space.

**PARTNERING**  
 Are you a charitable organization with whom we could partner? We need enthusiastic teams to sell tickets for these great events, and in return we want to help you and your organization.

**SPONSORING**  
 Sponsor a concert series, a specific concert, an artist to perform, etc.

**WE'D LOVE TO HEAR FROM ALL OF YOU**

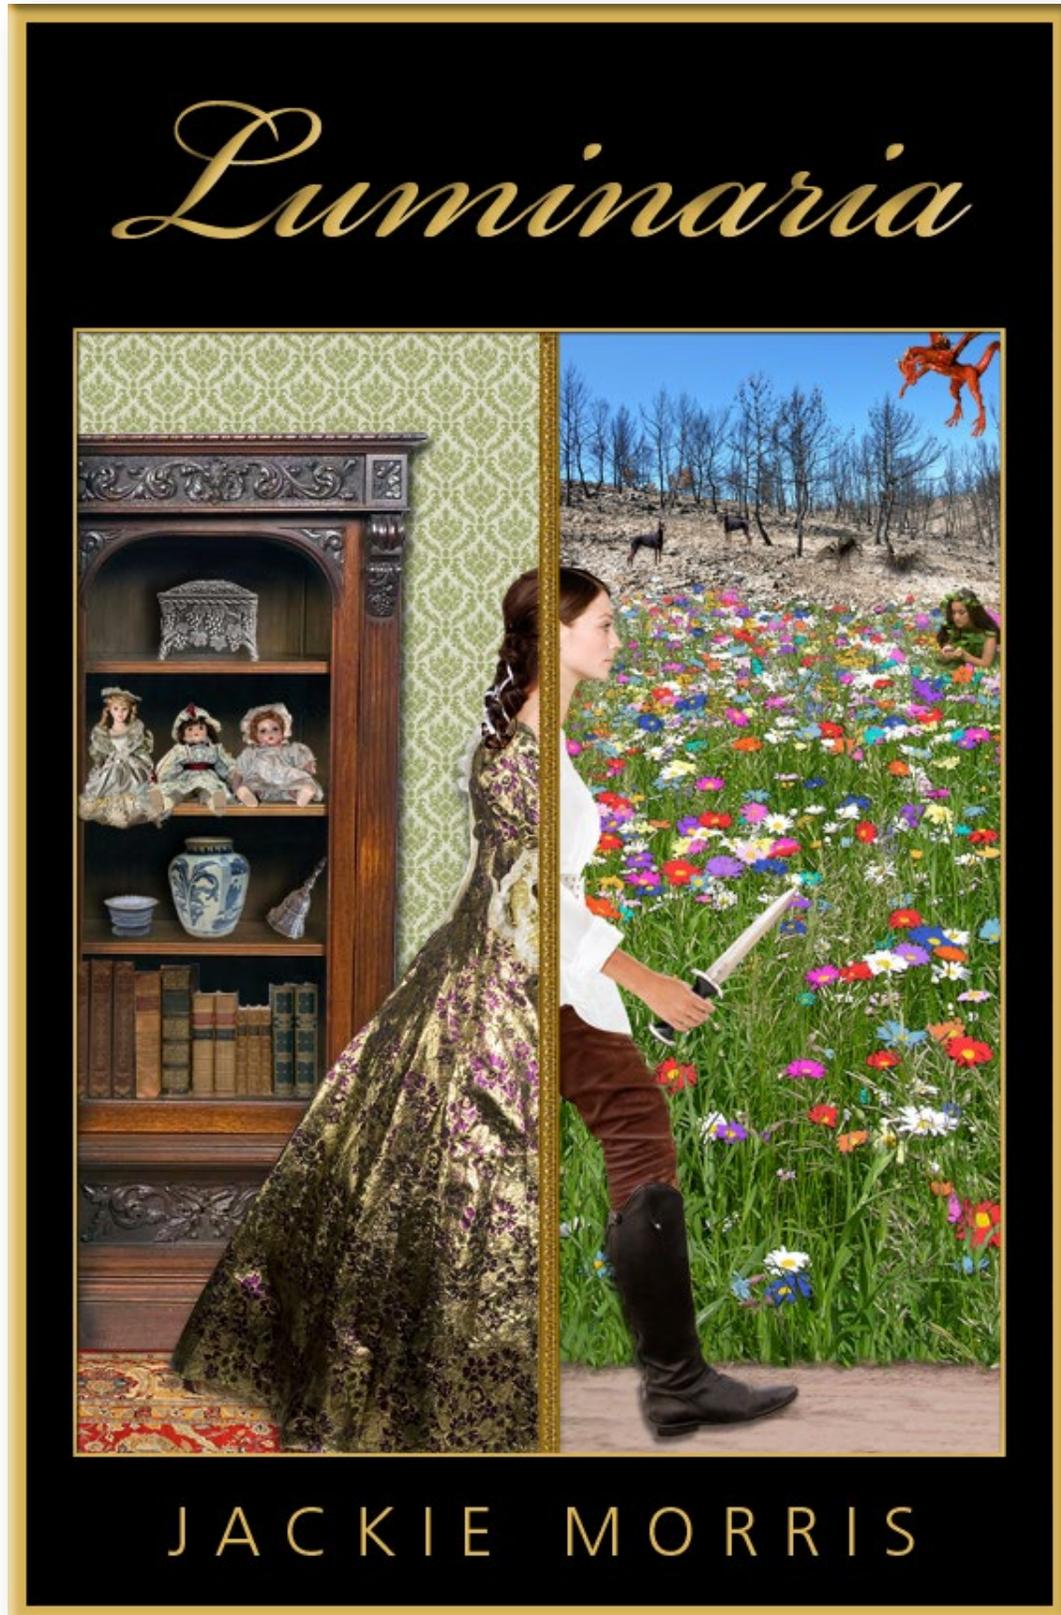

For more information, visit our website at [www.southminstermusic.com](http://www.southminstermusic.com) or email us at [information@southminstermusic.com](mailto:information@southminstermusic.com)

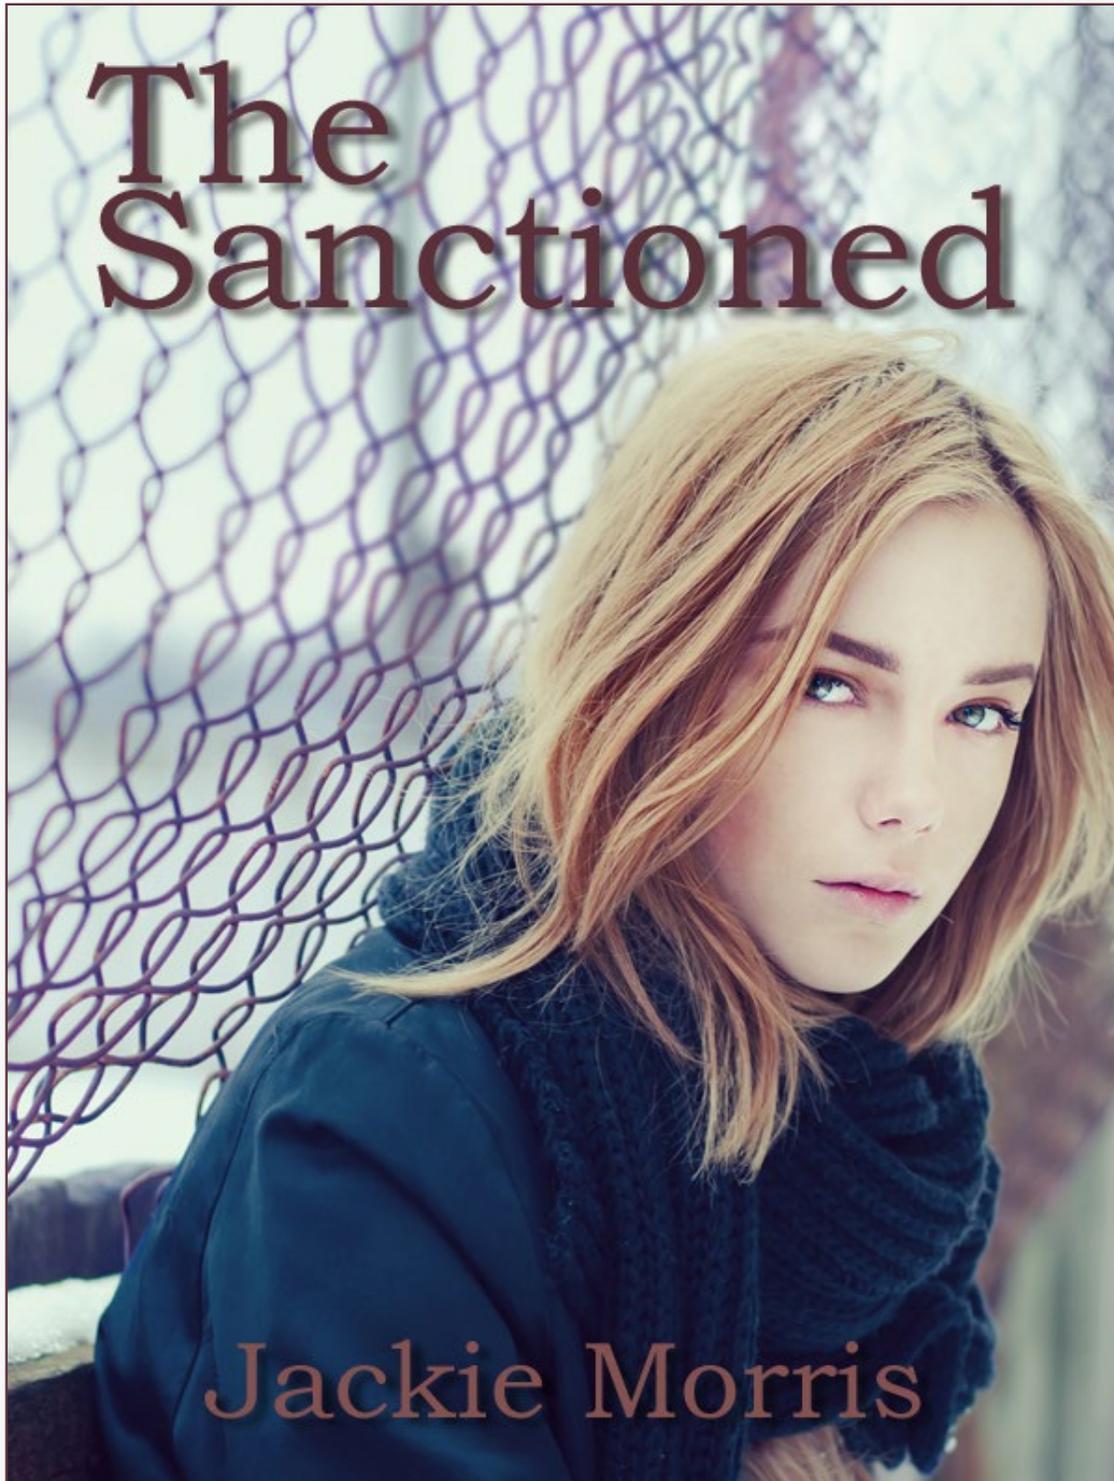

*Photoshop – Book Cover Design*

---

The book jacket for *Luminaria*. The general premise is a princess and her friends travel through mirrors, transporting them from 18th-Century earth to the magical world of Luminaria. I manipulated over 30 royalty-free images in Photoshop to help portray this transition from one world to the next.

*The Sanctioned* was originally a submission for a three-day writing contest. Written in the dystopian genre about a world in which overpopulation has forced the Overseers to virtually eliminate contact between the sexes, except for those who are Chosen to move to the Havens, where couples are able to cohabitate and procreate, but only under the watchful eyes of the Overseers.

## Photoshop – Photo Retouching

---

My husband proposed to me in this airplane. We wanted a memento of the occasion, so I used a shot of the plane on the ground and altered it to look like we were flying. Yes, we're actually in there.

Before

After

Who isn't familiar with the nightmare of bringing together a group of random photos into a common look and feel for a conference agenda? This was one of a series where the end pieces all needed to have a grey, graduated background. I also needed to remove some of the yellow cast from the overall shot.

Before

After
